George O. Walton

FOREWORD

●

Over a long period of years, with infinite patience, and a rare sense of values, the late George O. Walton of Roanoke, Virginia had formed an extraordinary collection of United States Coins and Paper Money together with a small but select group of Foreign Gold Coins.

His work was an achievement. The sources from which choice specimens of many of the rare coins could be secured were very limited. Formation of such a comprehensive collection as George Walton has brought together has required an unselfish expenditure of much time and money. All series are well represented, mostly by superb specimens. Space does not permit us to elaborate on the many highlights contained within this catalogue.

To view this collection, or to scan it as catalogued and pictured in this volume, is to marvel at the undertaking.

Mr. Walton was an ardent numismatist, beginning his Collection in his youth. He took an active interest in the affairs of the American Numismatic Association. He attended regularly the National Conventions, and many regional conventions. He was one of the founders of the Middle Atlantic Numismatic Association, and served it well as a President. He was instrumental in organizing many coin clubs in Florida, North and South Carolina, Georgia and Virginia. His displays of sections of his collection have been viewed by tens of thousands of people and collectors in all parts of the United States. At the time of his death, Mr. Walton was enroute to Wilson, North Carolina where he had planned to attend the Wilson-Goldsboro Coin Club show and display a part of his collection.

Although we have had the pleasure of handling most of the famous and valuable collections ever offered for sale, no collection has afforded us the number of thrills that this collection has. We are quite certain you will find every coin and note attributed and classified properly.

It is with appreciation that we undertake to dispose of, by public auction, so distinguished a collection formed by such a distinguished numismatist.

U. S. HALF DIMES

NOTE: It is not fully acknowledged in the Guidebook, but choice U. S. Half Dimes, when sold at auction or at private sale, have continuously brought over the catalogue price. It would be wise to keep this in mind when bidding on this important series. Almost all of the Half Dimes in this offering have been dipped or cleaned, but we feel this does not hurt the value of these pieces.

UNITED STATES PAPER MONEY

In the past twenty years collecting Paper Money issued by the United States has experienced cycles of interest and trends. While the late George Walton was an ardent student of Numismatics for a great number of years, his preference for United States coinage was notable and it was his particular desire to complete, if possible, the Paper Money series for the collection.

It is difficult to conceive the magnitude of this outstanding section of his collection; therefore, it would be futile to attempt to enumerate the many rare and desirable specimens in any preface. However, it will suffice to add that this offering presents a rare opportunity to secure specimens of notes which are regarded as virtually impossible to acquire.

A complete illustrated guide with valuations for Paper Money of the United States, authored by Robert Friedberg, is available for reference. All notes offered here have been attributed to his systematic numbering and are preceded by Fr. #.

VERY RARE DEMAND NOTES

These were the first notes issued by the United States, by authority of Congress under Acts of July 17, 1861 and August 5, 1861, all of which bear the date August 10, 1861. They were issued in \$5.00, \$10.00, and \$20.00 denominations.

The notes were payable "on demand" by the Assistant Treasurer at New York as well as at the Sub-Treasuries in Philadelphia, Boston, Cincinnati, and St. Louis. These are the only notes which do not bear the official "seal" of the United States Treasury Department. All demand notes are very rare and seldom obtainable, primarily due to the fact that most of them have been redeemed.

As an indication of how rare this note is, it was not in the celebrated Grinnell collection which offered just about everything. If we had this note in our stock it would be priced at \$2,000.00.

COMPOUND INTEREST TREASURY NOTES

The Compound Interest Notes are somewhat larger than the regular notes and were issued during the difficult times towards the end of the Civil War, at a time when our national debt had assumed enormous proportions and money was difficult to obtain. These notes were for three years, with interest at 6%, compounded semi-annually. The reverse of the notes were printed in green, with a table showing the value every six months up to maturity. Across the face of the note is printed in large gold letters, in two lines, COMPOUND INTEREST TREASURY NOTE. Most of these notes were redeemed and very few exist today.

Lot No. 1357

1357 Fr. #190 \$10.00. 1864 Colby and Spinner. Redemption value \$11.94. Red Seal, rays. Extremely Fine. Portrait of Chase left, eagle with flag in cents, lady of peace at right. A numismatic and historical rarity.

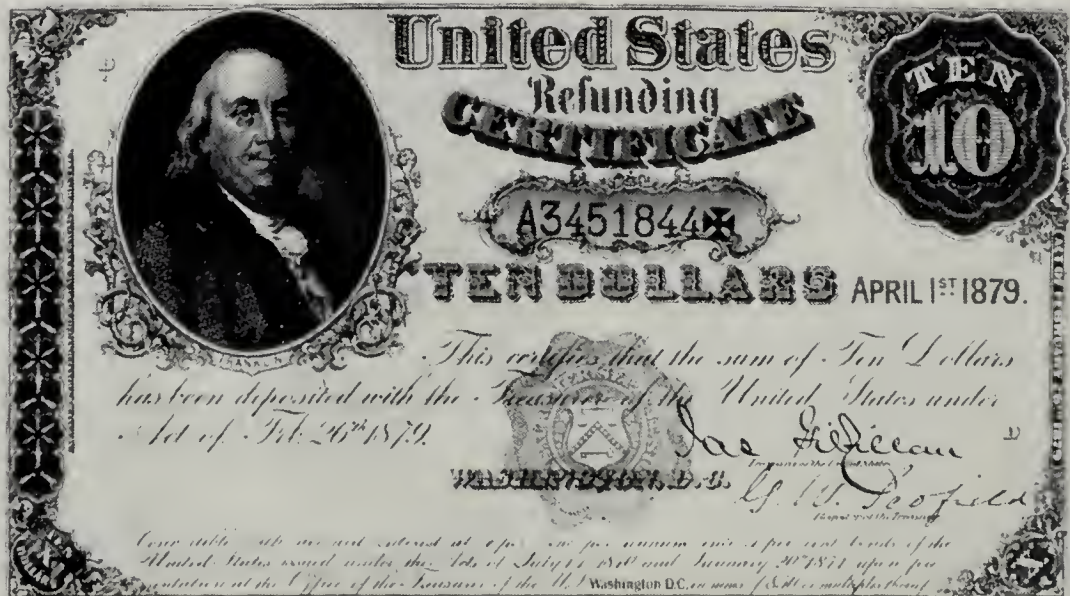

Lot No. 1358

1358 Fr. #191 \$20.00. 1864 Colby and Spinner. Redemption value \$23.88. Red Seal, rays. Very Fine, choice. Small vignette of Lincoln at right, cannon at center, figure of Victory seated at left. Date printed in red, Aug. 15, 1864. A magnificent specimen of this excessively rare note. Certainly many times rarer than the preceding \$10.00 denomination.

REFUNDING CERTIFICATE

Issued by an Act of Congress, February 26th, 1879. All notes are dated April 1st, 1879 and were only issued in \$10.00 denomination. These notes bore interest at 4% per annum and were convertible into 4% bonds. All moneys received were to be applied to payments of bonds bearing interest if not less than 5%. These notes are very rare and of considerable historical significance.

Lot No. 1359

- 1359 **Fr. #214** \$10.00. 1879 Scofield and Gilfillan. Large Red Seal. Uncirculated, creased once at lower edge. Portrait of Benjamin Franklin at upper left, value at upper right.

SILVER CERTIFICATES

Issued by an Act of Congress, February 28th, 1878. They were issued and released against silver deposits with the United States Treasury. They are historically significant, especially today, with the current discussions about the price of silver.

TWENTY DOLLAR NOTES

1878 COUNTERSIGNED SIVER CERTIFICATE — \$20.00

EXTREMELY RARE — UNLISTED VARIETY

Lot No. 1413

- 1413 **Silver Certificate. Series of 1878. \$20.00** denomination. Signed by Scofield and Gilfillan. Countersigned by A. V. Wyman. Payable at Washington, D. C. Obverse: Head of Decatur, right. Usual engraving on obverse as type. Large Red Seal at top center; however, in place of the usual large red XX as on the few known specimens, this note has the word TWENTY spelled out in large red letters below seal. Reverse: Printed in brown-black ink on white paper as all are, however, this new type has blue fibres on half of reverse. A completely new variety, both obverse and reverse. **Unlisted in Friedberg** and to record and locate the note we assigned numbers as follows: Design number 76Aa, Note number 307A. This note is in a **choice Very Fine** condition and therefore leaves no room to question its authenticity. We have checked the records of the Grinnell, Wade, Pirtle, and Hutchinson collections, as well as other listings. We have examined the few notes in existence that are privately owned, and all are of the regular listed variety (#307). The only other specimen of this note that we know of was offered by us at auction on Saturday, Oct. 17, 1959 where it sold for \$1,100.00 after spirited bidding. The great enhancement in value which this rarity will influence over the other notes in a collection is inestimable. In our opinion, with the demand for great rarities in all series, this item should realize several thousand dollars.
- 1414 **Fr. #308** \$20.00. 1880 Scofield and Gilfillan. **Countersigned by Hillhouse**. Payable at New York. Large Brown Seal. Fine/Very Fine. A very desirable specimen of an extremely rare note. We honestly doubt if more than ten specimens of this exact note exist. It is the only one of its type for the series with a countersignature. Should sell close to \$1,000.00.
- 1415 **Fr. #311** \$20.00. 1880 Bruce and Wyman. Large Brown Seal. Very Fine. A choice specimen of a rare note seldom offered for sale. This is the first time in 20 years that so many different Decatur notes have been offered for sale.

U. S. PAPER MONEY

- 1416 **Fr. #312** \$20.00. 1880 Bruce and Wyman. Small Red Seal. Fine/Very Fine. Distinct type change to Small Red Seal without 'XX'. Extremely rare — possibly six specimens exist. A poor condition note sold last year for \$800.00. This should be worth double that. It is not as bad as described.
- 1417 **Fr. #314** \$20.00. 1886 Rosecrans and Huston. Large Brown Seal. Uncirculated, creased once. A very desirable type note, very much in demand.
- 1418 **Fr. #318** \$20.00. 1891 Tillman and Morgan. Small Red Seal. About Uncirculated.
- 1419 **Fr. #321** \$20.00. 1891 Parker and Burke. Blue Seal. Uncirculated, crisp. Very scarce in this condition.

FIFTY DOLLAR NOTES

- 1420 **Fr. #328** \$50.00. 1880 Rosecrans and Huston. Large Brown Seal. Very Fine. Very rare and only available when great collections such as this one are offered for sale. We doubt if three specimens have been offered in the last twenty years.
- 1421 **Fr. #329** \$50.00 1880 Rosecrans and Nebeker. Small Red Seal. Fine-Very Fine. Similar to preceding, but note change to Small Red Seal. Just as rare and desirable as the preceding. Worth a premium bid.
- 1422 **Fr. #334** \$50.00. 1891 Vernon and Treat. Red Seal. Uncirculated.
- 1423 **Fr. #335** \$50.00. 1891 Parker and Burke. Blue Seal. About Uncirculated. Very scarce note seldom offered for sale.

ONE HUNDRED DOLLAR NOTES

- 1424 **Fr. #340** \$100.00. 1880 Bruce and Wyman. Large Brown Seal. About Extremely Fine. Extremely rare, possibly ten specimens in collectors' hands. Very much sought after for both type and systematic collecting. Catalogs at \$650.00 in Very Fine; this note though unpriced in Friedberg is worth \$1,000.00.
- 1425 **Fr. #344** \$100.00. 1891 Tillman and Morgan. Red Seal. All high denomination notes are rare, and while not as rare as the preceding certainly worth a premium bid.

TREASURY OR COIN NOTES

These notes were issued in payment of silver bullion which Congress directed the Secretary of the Treasury to purchase from time to time, in accordance with the Act of July 11, 1890. They were redeemable in gold or silver coin at the discretion of the Secretary of the Treasury. They are legal tender for all debts, public or private, except where otherwise stipulated in a contract and are receivable for customs, taxes, and public dues. This collection is the most extensive offering since the Grinnell Collection (1944).

- 1426 **Fr. #347** \$1.00. 1890 Rosecrans and Huston. Large Brown Seal. Uncirculated. All coin notes are scarce and desirable. Being the first for denomination and type it is very much in demand, especially this signature combination.
- 1427 **Fr. #349** \$1.00. 1890 Rosecrans and Nebeker. Small Red Seal. About Uncirculated. Quite scarce.

This was the only reconstructed sheet of 1891 \$10.00 offered in the sale. **Extremely rare** as a single note, of the highest degree of rarity when offered this way. Should sell near \$750 00, and prove a good investment.
- 1442 Fr. #370 \$10.00. 1891 Tillman and Morgan. Red Seal. Very Fine. A very scarce signature combination.

Lot No. 1443

- 1443 Fr. #372 \$20.00. 1890 Rosecrans and Huston. Serial # 16604. Large Brown Seal. About Uncirculated. **This is the exact note as illustrated in Friedberg's book.** One of the rarest notes in the series. **We doubt if more than 6 specimens exist.** Should bring a record price today.

NATIONAL BANK NOTES

Issued under Acts of Congress, February 25, 1863 and June 3, 1864. By the National Banking Act all banks having charters from the Government were allowed to issue notes by depositing government bonds with the Treasurer of the United States at Washington to an amount limited to 90% of the par value of the bonds so deposited. The notes for all banks were of the same design, the only variations being the blank provision for the name and address of the bank, its charter number, date of charter, with space provided for the signatures of the President and Cashier of the bank. Some of these are signed in pen and ink. There were three distinct charter periods, each representing a major design change in the notes. Minor type varieties exist in the third charter period, as can be evidenced on the reverse side of the note as well as the color of the seal.

CALIFORNIA NATIONAL GOLD BANK NOTE

- 1677 Fr. #1136 \$5.00. 1870 Allison and Spinner. **First National Gold Bank of San Francisco.** Small Red Seal. Extremely Fine. All notes of this type are quite scarce; they are very rare in this choice condition. This note, in this condition, should sell near \$500.00.

GOLD CERTIFICATES

- 1678 Fr. #1179 \$20.00. 1905 Lyons and Treat. Red Seal. Extremely Fine. This is the famous "technicolor" note! Probably the most popular and sought-after note in this series. Very rare and seldom offered for sale. This is a rare collector's item and not to be confused with ordinary Gold Certificates which are not desirable.

- 1679 **Fr. #1216 \$500 00.** 1882 Parker and Burke. Red Seal. Very Fine. This is the famous "Lincoln" portrait note of which very few are known to exist. While we do not encourage collecting of Gold Certificates, this note is particularly sought-after by collectors of Lincolniana, hence its appearance at this time. It has always been recognized as quite rare and most desirable.

UNCUT SHEETS

LARGE SIZE — U. S. CURRENCY

NATIONAL BANK NOTES

The uncut sheets are complete sheets of four notes each as originally issued by the Bureau of Engraving and Printing. These sheets are intact, none of the notes have ever been cut or severed, and the margins are full and complete. There is no doubt that comparatively few sheets were preserved in original uncut form by any of the banks, as can be evidenced by how seldom one can see a sheet offered for sale. This is the opportunity of a lifetime for the collector of United States Paper Currency to secure uncut sheets of notes, and we dare say might prove to be a most profitable investment.

- 1680 **Second Charter.** Series of 1882. Brown backs. **Sheet of four** \$5.00 notes. Fr. #467. Bruce and Wyman. Handwritten signatures of the bank officers. The St. Paul National Bank, Nebraska. From the famous Grinnell Collection sale (Lot #1450) where it was stated, "Few known to exist of this very rare western bank." In our opinion this sheet should sell near \$750.00.
- 1681 **Third Charter.** Series of 1902. **Sheet of four** \$5.00 notes. With 1902-1908 on reverse. Fr. #589. Vernon and Treat. Handwritten signatures of bank officers. The Fort Dearborn National Bank of Chicago, Illinois. Should sell near \$250.00.
- 1682 **Third Charter.** Series of 1902. **Sheet of four** \$5.00 notes. Blue Seal without 1902-1908 on reverse. Fr. #598. Lyons and Roberts. Stamped signatures of bank officers. First National Bank of Wausau, Wisconsin. At one time had been neatly folded between the notes, but this does not impair the value. Should certainly sell at \$200.00.
- 1683 **Third Charter.** Series of 1902. **Sheet of four** \$5.00 notes. Blue Seal, without 1902-1908 on reverse. Fr. #607. Elliott and Burke. Handwritten signature of bank president. Seventh Avenue National Bank of New York, N. Y. Shows faint evidence of having been folded once at one time. Also worth near \$200.00.
- 1684 **Third Charter.** Series of 1902. **Sheet of three \$10.00 plus one \$20.00** as issued. With 1902-1908 on reverse. Fr. #616/642. Vernon and McClung. Handwritten signatures of bank officers. Moniteau National Bank of California, at California, Missouri. Shows evidence of having been folded at one time. All Missouri notes are scarce; this sheet should sell at \$300.00.
- 1685 **Third Charter.** Series of 1902. **Sheet of three \$10.00 plus one \$20.00** as issued. Without 1902-1908 on reverse. Fr. #624/650. Lyons and Roberts. Handwritten signatures of bank officers. First National Bank at Fremont, Ohio. This was the fifth bank chartered by the United States. A beautiful condition sheet that should certainly sell near \$350.00.

RECONSTRUCTED SHEETS

LARGE SIZE — U. S. CURRENCY

All of the following lots consist of sheets of four notes which have been re-assembled in the original form by careful joining together each of the cut or severed notes from their respective sheets in proper sequence. This is a most difficult job, for after the sheets are cut, the notes are usually distributed and it is almost impossible to reassemble such sheets. All of these sheets are formed by neatly joining the notes together at the back with narrow strips of white paper tape. This method was used upon instructions from the late Mr. Grinnell, and all of the following are from his celebrated collection.

- 1686 **Legal Tender.** \$1.00. Bruce and Wyman. Large Brown Seal. Series of 1880. Fr. #30. **Reconstructed sheet of 4 notes** Worth \$200.00.
- 1687 **Legal Tender.** \$2.00. Bruce and Gilfillan. Large Brown Seal. Series of 1880. Fr. #51. **Reconstructed sheet of 4 notes.** Worth \$300.00.
- 1688 **Legal Tender.** \$5.00. Bruce and Gilfillan. Large Brown Seal. Series of 1880. Fr. #71. **Reconstructed sheet of 4 notes.** Worth \$350.00.

NATIONAL BANK NOTES

SERIES OF 1929

This is a rare and unique group of uncut sheets of National Bank Notes which we feel sure will create spirited bidding. There are SIX notes of the same denomination to each sheet. All notes are signed by E. E. Jones, Register of the Treasury and W. O. Woods, Treasurer of the United States, with Brown Seal. All sheets are as perfect as the day issued, unless otherwise stated. All of the sheets are the first issued by these banks and the majority of them are Serial Number 1 notes. During the issuing of these National Bank Notes the Treasury Department changed the system of numbering to conform to other issues of currency. It was possible with this system to better detect counterfeits by the number and check letter. Under the earlier system this was not possible. In the description we have indicated the type of numbering.

RECONSTRUCTED SHEETS

NATIONAL BANK NOTES

SERIES OF 1929

These sheets are almost identical to the preceding in appearance, the only exception being that they had been cut at one time, reassembled, and neatly joined by small white strips on the reverse. The overall appearance has not been impaired. This method was used upon instructions from the late Mr. Grinnell, and all of the following are from his celebrated collection. They are just about as desirable as uncut sheets, in fact the pedigree makes them doubly desirable.

1747 First National Bank of Mankato, Kansas. \$10.00. All Serial No. 1.

UNCUT SHEETS

UNITED STATES REDUCED SIZE CURRENCY

These are sheets in their original form as printed and before they are cut. All notes are the same denomination on each sheet. The number of notes to the sheet varies depending upon the series (see description of each lot). While we cannot honestly state they are rare, they are very desirable and in great demand. It was the practice prior to 1950 to sell sheets "over-the-counter" at the Treasury Department Building in Washington, D.C. This has since been discontinued, which has created an extraordinary demand. None have been folded or creased which make them suitable for framing — all are Crisp Uncirculated.

HOARD OF "HAWAII" NOTES

Obviously, only a limited number of these notes were printed. They have become quite popular and sought-after, especially since Hawaii became a State. We could not conceive anyone having a substantial number of these notes, primarily due to the manner they were distributed. However, upon opening the Safe Deposit Box containing the Paper Money Collection, you can imagine the cataloguer's amazement to find this substantial number of notes in one collection. It is the wise and prudent collector, seeking an investment, who will be quick to realize the potential of acquiring all of the following notes. We dare say these should prove to be a most profitable venture in the years to come.

UNITED STATES FRACTIONAL CURRENCY

The United States Fractional Currency, in our opinion, is one of the most beautiful and interesting series of "American Money." The causes which prompted its issue is one of the most historically interesting of our entire history. For some reason or other, there has not been a great deal of interest in this series. The wise collector would do well to invest in these beautiful and scarce notes while they are available at very moderate prices. They will add interest, charm, and value to any collection.

Specimen Notes: Obverse and reverse designs. 15 cents, Grant and Sherman. Pair obverse and reverse, Green backs. Autograph signatures. Pair obverse and reverse, Red backs. Autograph signatures.

Virtually all of the notes contained in the set are Choice Uncirculated. A few of the notes are Extremely Fine which is the lowest grade of any of the notes. It is very difficult to assemble such a collection today, and at considerable cost, probably near \$800.00. As a set, it should certainly sell near this figure considering condition and completeness.

ENCASED POSTAGE STAMPS

While this offering could be classed as a collection, it should be better described as a "hoard." What it lacks in quality, it offers in quantity. This offering accounts for the reason that these items have not been generally available to collectors. Quite obviously, Mr. Walton acquired all that ever came to his attention, without regard to condition or rarity.

Encased Postage was an idea conceived and patented by J. Gault in 1862. In the period during and following the Civil War, it was commonplace to use stamps in lieu of coins (which were in acute shortage). Gault invented this round brass frame with mica which protected it from dirt and abuse. For commercial purposes advertising was solicited and embossed on the reverse. In general, stamp issues of 1861 were enclosed in the item. They exist in 1, 2, 3, 5, 10, 12, 24, 30, and 90 cent denominations. The Two Cent is a great rarity, of which possibly three are known. All of the high values are rare and desirable.

All Encased Postage are attributed to Friedberg's systematic numbering as outlined in his Paper Money of the United States reference book. In view of the fact that these items are seldom offered for sale, we have deviated from our usual policy of not printing estimates and alongside each lot have included our estimate of the current market values. **THESE ARE NOT RESERVE PRICES. YOU MAY BID HIGHER OR LOWER AS YOU WISH.**

ENCASED POSTAGE, CONFEDERATE STATES PAPER MONEY

RARE TWENTY-FOUR CENT DENOMINATION

Lot No. 1895

- 1895 J. Gault. Plain Frame. EP-167. Very Fine, choice. Seldom obtainable in any condition. Lacking in many collections. Worth. (250.00)

NINE CENT STRIP ENCASED POSTAGE

- 1896 **THIS LOT, DESCRIBED AS FOLLOWS, IS SOLD "AS IS". WE DO NOT GUARANTEE THE AUTHENTICITY OF THIS LOT.** It is being offered here solely because it came inventoried as part of the estate. It consists of a strip of three 3 cent stamps in a crude copper case; each stamp overlapping within an oblong copper frame. On the reverse, embossed within a circle in the center, is an eagle destroying a serpent, surrounded by fancy scrolls. The eagle design closely resembles the Feuchtwanger pattern cent of 1837. To our knowledge, Feuchtwanger did not have any connection with the manufacture or distribution. About 1900, Ed Frossard, a prominent dealer at that time and now deceased, stated that, "He knew the man then making them." This statement appears in a published report in the August 1939 Numismatist. Should still be of certain numismatic interest and worth about (100.00)

CONFEDERATE STATES PAPER MONEY

The Confederate States of America established a provisional government and capital at Montgomery, Alabama on February 9, 1861. Jefferson Davis of Mississippi, and A. H. Stephens of Georgia, were elected President and Vice-President, respectively. During the Civil War enormous amounts of Confederate Currency were issued. Shortly after the outbreak of the War in 1861, the first issue, i. e. "Montgomery Notes" and a few later issues, were accepted as legal tender. Needless to say as the conflict progressed, confidence in this currency dwindled to eventual nil. At the end of the War most of the worthless currency was destroyed. In some cases, however, it was retained for sentimental reasons and curiosity. From this part of history the serious collecting of notes of the Confederate States and their study began. Today it is interesting, popular, and in demand.

COMPLETE SET

RARE MONTGOMERY ISSUE OF 1861

OFFERED INDIVIDUALLY

- 1897 **\$1,000.00. Montgomery Issue of 1861.** Handwritten date. Obverse vignettes of Jackson and Calhoun. Printed in black and green. Only 607 printed, however, it is quite apparent that probably a dozen or so exist today. This note is in Fine to Very Fine condition. Has been cut-cancelled and repaired on the reverse side. Serial No. 490. Very much in demand and worth near \$500.00.

CONFEDERATE STATES PAPER MONEY

- 1898 **\$500.00. Montgomery Issue of 1861.** Handwritten date. Obverse design showing a train crossing bridge with cattle watering below. Printed in black and green. 607 printed and equally as rare as the \$1,000.00 note just sold. About Very Fine, showing pronounced creases. Serial No. 354. Also in demand, and currently quoted at \$500.00.
- 1899 **\$500.00. Montgomery Issue of 1861.** Duplicate of preceding note, only in Very Good to Fine condition. Note is partially faded and shows improper mounting with cellophane tape many years ago. Very low serial No. 25. Still rare and certainly worth \$250.00.
- 1900 **\$100.00. Montgomery Issue of 1861.** Handwritten date. Obverse design: Columbia at left, railroad train with passengers and freight in center. Printed in black and green. 1,606 issued, according to available records. Serial No. 1402. Fine to Very Fine, about average for this denomination. Should sell near \$350.00.
- 1901 **\$50.00. Montgomery Issue of 1861.** Handwritten date. Obverse design: three Negroes in field preparing cotton for harvest. Printed in black and green. 1,606 issued. This is serial No. 1147. Very Fine, average condition. Rare and desirable note that should realize about \$400.00.

THE HIGHLIGHT OF THE CONFEDERATE COLLECTION

\$5.00 "INDIAN PRINCESS"

CRISP ABOUT UNCIRCULATED — FINEST KNOWN

- 1902 **Third Issue. September 2, 1861. \$5 00.** Obverse design: Negroes loading cotton on steamboat at lower left; "**Indian Princess**" at upper right, by which term this bill has become known. A similar type vignette of an Indian Girl appeared on a \$1.00 note of the Bank of Saline, Michigan in 1837. Records indicate 7,160 issued, but we do not know of more than five to seven, perhaps ten in existence. This note has the distinction of being the rarest and most sought-after by all collectors of this series. We cannot find a record of a single offering of this note at Public Auction in the last ten years. We find that most of the great collections that have ever been offered did not have a specimen of this note. The few known specimens, now in private collections are very worn in Fair to Good condition. We do know of one specimen that could be classed as Fine. The specimen offered here, Serial No. 7107, is **CRISP ABOUT UNCIRCULATED** and nearly as perfect as the day it was engraved by Hoyer and Ludwig. We consider this note, in this condition, by far the rarest of all notes in the Confederate Currency series, and certainly one of the great rarities in all Americana. Considering its rarity, we do not hesitate to state that it is well worth a price in the four figure mark.

ORIGINAL HOARD

VIRGINIA STATE BANK NOTES

- 2022 Acquired by Mr. Walton a number of years ago, this lot has created much interest and controversy amongst collectors of Confederate and South State Currency. It consists of over 1,000 pieces of pre-1862 Virginia Bank Notes. Face value of the package is \$31,272 in various denominations from the \$1.00 to the \$50.00.

Originally found as an eight inch bundle, fastened with twine and sealed with red wax on which is impressed a bank crest. It was reported found in an "inner-wall" of a Virginia bank while undergoing remodelling. The story relates of the vault being constructed in 1862 to protect money, deeds, and other records from the advancing Union Army. We cannot verify or warrant that this story is true.

At the time of the publicity break in 1957 this package was said to contain a number of Confederate \$3.00 bills. Closer examination, by breaking the twine, after Mr. Walton's death reveals that these 18 specimens of the \$3.00 bill were actually Virginia notes and not Confederate.

Of considerable historical interest, possibly a museum item, and should be worth \$1,500.00. Valued by Mr. Walton at \$10,000.00.

THE CHARLOTTE MINT

Opened 1837

Closed 1861

Charlotte was designated as a site for a branch of the Philadelphia mint by Congress on November 25th, 1835, after a five year struggle by gold miners in Mecklenburg, Anson, Union, Cabarrus, Rutherford and Davidson Counties.

Carolina's fight for a mint was hindered by the fact that Beehtler was minting private gold coins. When the Charlotte mint opened this practice was discontinued. While the mint opened July 27, 1837 for the processing of Raw Gold, it did not commence the striking of gold coins until early 1838.

From the time of its opening in 1837 to May 21, 1861 the day following North Carolina's secession from the Union, when it was disbanded, \$5,059,188 in gold was minted at Charlotte. All the metal was mined in this section, indicating the immenseness of "Piedmont's Gold Boom".

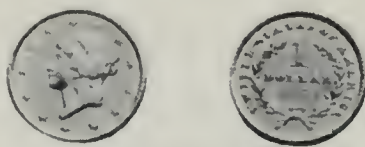

The Civil War proved disastrous to the Charlotte mint. It never reopened as a United States mint. During the war, the Confederacy used the mint building as naval offices. When the south surrendered, the former mint was used as offices for the Federal armies in the area during the reconstruction period.

This is the history and origin of the Charlotte mint. The shining substance is no longer sought and no money has been minted here since the Civil War. However, on West Trade Street, a handsome white building stands as a monument to Carolina's "own gold rush".

THE DAHLONEGA MINT

Opened 1838

Closed 1861

Up until the famous California gold strikes in 1849 Dahlonega boasted the most important gold mines in the United States, and was the site of the first government branch mint for coining gold exclusively. The discovery of richer lodes in the west, however, drew most of the miners away, and Dahlonega lost her prestige as a gold producing center.

Gold was first discovered in the Dahlonega section on turkey hill in 1823 by a hunter. Indians knew of the precious metal long before, for the region was known to them as Tah-lon-e-ka, or "yellow metal" from which the town derives its name. The land was then in Cherokee territory, but other land was given the Indians in exchange for it. Then the gold lands were disposed of by the state in the great gold lottery of 1832, when the district was surveyed in 40 acre lots and raffled off at \$5.00 per lot. Dealing in this real estate made several great fortunes for the earlier purchasers. Samuel J. Tilden, through his daughter donated one million dollars to the City of New York to build what is now known as the New York Public Library, a small part of the fortune he made in these famous land deals.

Dahlonega has seen gold rushes as colorful as those of the west. At one time, during the Andrew Jackson administration, Governor Gilmer was forced to call for Federal Troops to keep down the riots, when the State Militia was found inadequate to cope with the situation.

The first U. S. gold coins using domestic metal were issued from gold mined in the Dahlonega region in 1829. The mint was erected in Dahlonega in 1838 for the exclusive coining of gold. A little less than \$7,000,000 was coined in the building before the Civil War. In 1861 the Confederacy confiscated all United States property and the Governor of Georgia took over management of the Dahlonega mint. After the war between the states, the property was returned to the United States. However, it had deteriorated to such a degree that it was deemed advisable to sell or destroy the property. In lieu of this, Congress ultimately agreed to award the property to the State of Georgia for educational purposes.

THE VERY RARE 1854 'D' THREE DOLLAR

Lot No. 2141

- 2141 **1854 'D'** Extremely Fine, lightly burnished. Rather well struck for this normally weak coin. We feel this coin should realize \$1,500.00.

- 2157 1852 'D' Extremely Fine, mint lustre. Scarce in any condition, quite rare so choice. The Wolfson coin, a trifle better, realized \$180.00.

COMPLETE SET OF PANAMA-PACIFIC COINS

IN

THE ORIGINAL COPPER FRAME

- 2178 **1915 Complete Panama-Pacific Set**, consisting of two **Fifty Dollar Gold pieces**, round and octagonal; **\$2.50** and **\$1.00** in gold; and the **Half Dollar** in silver. Mounted in the **ORIGINAL COPPER FRAME**.

The Panama-Pacific Exposition was held in San Francisco from February 20th to December 4th, 1915, in celebration of the construction and opening of the Panama Canal. It was one of the largest expositions ever held in the United States and attracted world wide attention. Forty-four States, United States Territories, and thirty-six foreign nations were represented. The coins struck in connection with the Exposition are among the most interesting of the United States Commemorative issues.

These were the first Fifty Dollar gold coins to be issued under the authority of the United States Government. Approximately 1,500 sets were struck, although only 483 sets were sold at the Exposition. The balance of the issue was remelted. We doubt if more than half of those sold still exist, making it quite rare. This is probably the most popular and sought-after set of coins on the market today. These sets were originally sold for \$200.00 back in 1915. They have steadily increased in value, to a point today where they are quoted at \$9,000.00. It is an excellent investment that certainly never loses it value.

PIONEER and TERRITORIAL

GOLD COINS

Minted in the early days of California, Colorado, Utah, Oregon, Georgia and the Carolinas. Surrounding the gold coins of Private and Territorial Issues, there is written the stirring history of the Pioneers of our great country. This unique collection, as a whole, represents the most complete collection of its kind ever offered the numismatic fraternity. Nearly all of the principal issues are represented, and many by choice specimens. Contained within this offering are many new and heretofore unpublished varieties of coins. We have undertaken to convey to you as much information as possible in the description of each coin, with the hope that this section of the Walton Collection becomes the standard reference in years to come. Seldom, if ever in a lifetime, does one have the opportunity to view a collection of such magnitude.

TEMPLETON REID

Georgia 1830

Lot No. 2179

- 2179 \$2.50. 1830. Obverse, 1830 in center, GEORGIA above, GOLD below. Reverse, large 2.50 in center, T. REID above, ASSAYER below. Raised border, milled edge. Very Fine, choice, bordering on Extremely Fine. Templeton Reid, whose coins are among the rarest of all private issues, operated a private mint near the gold mine of Lumpkin County, Georgia. It is stated that the Georgia gold coins, issued by Templeton Reid, were of a higher grade gold than any other gold coins ever issued in this country. It is probably due to this fact that all coins bearing the stamp of Templeton Reid are of excessive rarity. Very few are known to exist of this variety, and this is one of the finest specimens known. This is the first time that we have been able to offer this coin in nearly twenty years, the last time being the Bell sale in 1944. Unpriced in the current Guidebook, and justly so, since the appearance of the coin is so infrequent. We estimate the value of this coin at \$3,500.00, but it will probably realize more.

PIONEER AND TERRITORIAL GOLD COINS

NORRIS, GRIEG, & NORRIS

This firm, composed of Thomas H. Norris, Charles Grieg and Hiram A. Norris, was one of the first of the Pioneer firms to issue gold coins in California. The \$5.00 piece is the only denomination issued by this firm. There are only two varieties, dated 1849, one with plain edge, the other with reeded edge.

Lot No. 2180

- 2180 \$5.00. 1849. **REEDED EDGE.** Small eagle with olive branch in right talon and three arrows in left talon, small shield with numeral 5 on breast, around CALIFORNIA GOLD WITHOUT ALLOY. Reverse, date 1849 in center; N. G. N. SAN FRANCISCO in small letters within a circle of stars. In larger letters around FULL WEIGHT OF HALF EAGLE. Choice About Uncirculated, showing no signs of wear, but slight evidence of mishandling in the field. Far above average, and worth a premium bid over \$1,000.00.
- 2181 \$5.00. 1849. **PLAIN EDGE.** This coin from all appearances is identical to the preceding lot, the only obvious difference being the Plain Edge. Choice About Uncirculated, with a faint proof-like surface in the background. The numeral 5 on the shield is weakly struck, as are all of this variety. This variety is slightly rarer than the reeded edge, and in this condition should sell near \$1,250.00.

MOFFAT & CO.

The firm of Moffat & Co. was formed by John L. Moffat, Joseph R. Curtis, P. H. W. Perry, and Samuel H. Ward. They operated in California from 1849 thru 1853. In 1850 the firm was appointed United States Assay contractors, and Augustus Humbert was appointed United States Assayer. This firm, without a doubt, issued and handled the greatest number of gold coins of any of the Pioneer firms. This firm also issued many ingots.

Lot No. 2182

- 2182 \$10.00. 1849. Variety with **TEN DOL.** Liberty head facing left, large date below, thirteen stars; MOFFAT & CO. on diadem. Rev. eagle as on regular United States issues, TEN DOL. below; S. M. V. (Standard Mint Value) CALIFORNIA GOLD around. Milled edge. Sharp Very Fine showing light even wear on the obverse and reverse. Very scarce and seldom offered. Catalogues at \$400.00 in Fine, this coin should be worth double that figure.

PIONEER AND TERRITORIAL GOLD COINS

- 2183 \$10.00. 1849. Variety with **TEN D.** This coin is identical to the preceding as far as the general description, with the one exception that indicates the change in variety to TEN D. Choice Very Fine, in fact, the reverse shows less wear than the obverse. Worth about as much as the previous lot (\$800.00).
- 2184 \$5.00. 1849. Liberty head to left, date below; MOFFAT & CO. on diadem; thirteen stars. Reverse, eagle as on regular issues of U. S. coins; S. M. V. CALIFORNIA GOLD FIVE DOL around. Extremely Fine, showing only the slightest wear on the high points. Much original mint lustre visible. Selling near \$350.00.
- 2185 \$5.00. 1849. Duplicate of the preceding lot. Choice Very Fine, just a shade below the previous lot in condition. Worth \$300.00.
- 2186 \$5.00. 1850. This type is almost identical to the preceding, but obviously struck from an entirely different die as the eagle gives the appearance of being slightly larger. Struck from light yellow gold. Extremely Fine, showing only minute wear on the coin. Choice and above average. This coin is scarcer than the 1849 variety and should sell near \$400.00.
- 2187 \$20.00. 1853. Liberty head facing left, date in large figures below; thirteen stars; MOFFAT & CO. on diadem. The obverse and reverse designs are very similar to the adopted design of the regular Double Eagle of the period. The reverse legend reads SAN FRANCISCO CALIFORNIA TWENTY D. Milled edge. This coin is presumed to have been struck after John L. Moffat retired from the mint. Strictly Uncirculated with full original mint lustre. The only visible defects are a dent on the throat, from a coin striking this coin, a few barely visible nicks on the obverse in the field, and a minor dent on the reverse edge, probably due to it having been dropped at one time. Far above average for the coin, and certainly worth in the vicinity of \$700.00.

COINAGE OF AUGUSTUS HUMBERT

United States Assayer, San Francisco

The coins bearing the name of Augustus Humbert were all struck by Moffat & Co. All coins of Humbert as well as those of the U. S. Assay Office were authorized by Congress. Augustus Humbert was appointed the United States Assayer and supervised the issuance of these coins, as struck by Moffat & Co. It was under his authority that the first "slugs" or \$50.00 Gold coins were struck and issued.

Lot No. 2188

- 2188 \$50.00. 1851. **LETTERED EDGE.** Eagle with shield and ribbon on which is inscribed LIBERTY; scroll above on which is incused 880 THOUS below, 50 incused, D. C. for California; around UNITED STATES OF AMERICA, all within raised borders; edge lettered, AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1851. Reverse, fine engine turned design, with small target in center. Variety **without 50** incused in center of target on reverse. Uncirculated, without a nick to impair the beauty of this choice coin. Minor planchet imperfections on reverse, which do not affect the appearance of this coin, and are barely discernable. They are mentioned, however, for the sake of accuracy. This coin catalogues at \$5,000.00 and is worth that amount in this condition.

Lot No. 2189

- 2189 \$50.00. 1851. **MILLED EDGE.** Eagle with shield and ribbon as on the preceding variety, 880 THOUS on scroll above, the 880 is **not** incused. UNITED STATES OF AMERICA FIFTY DOLLS., around, all within a finely beaded circle, below is the date 1851, around in small letters, AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA. Reverse, heavy engine-turned design with medium target in center. Octagonal. Milled edge. Very Fine, in fact could be classed as Extremely Fine. Virtually free of the usual dents, particularly on the edges, but some are barely visible. This coin warrants a bid near \$2,500.00.

PIONEER AND TERRITORIAL GOLD COINS

- 2190 \$50.00. 1851. Duplicate of the preceding lot. Octagonal 880 Thous. Just about Very Fine, which is slightly above average for the type. Should sell near \$2,000.00.
- 2191 \$50.00. 1851. Similar in type and design to the preceding lot. Different variety; with **887 THOUS** on scroll. Very Fine and unusually free of edge dents for this condition. Some evidence is visible of the surface having been retooled to remove nicks. Still choice and desirable and worth over \$2,000.00.
- 2192 \$50.00. 1851. Duplicate of the preceding lot Octagonal. 887 Thous. Very Fine, choice, Virtually free of edge nicks or dents. This coin has been sandblasted to resemble a matte or sandblast Proof. Soft, satin, dull finish. Needless to say, the quality of the coin is not impaired, only the surface, which could possibly be removed or polished out. Even in this condition the coin is easily worth \$1,500.00 or more.

Lot No. 2193

- 2193 \$50.00. 1852. Similar in type and design to the preceding lots. 1852. In a slightly smaller size. 887 THOUS on scroll, which has also been reduced in size. Obviously struck from new dies. Choice Very Fine, virtually free of edge dents. Some evidence of brushing in the field to remove a few nicks. A very scarce variety that should realize in the vicinity of \$2,500.00.

Lot No. 2194

- 2194 \$10 00. 1852. 264 Grains. 880 Thous. This coin was issued by Moffat & Co. as authorized by Augustus Humbert as U S. Assayer. Liberty head facing left, MOFFAT & CO. on diadem, date below, thirteen stars. Rev. eagle on rock with shield and ribbon, of the same general type as on the \$50.00 Octagonal gold. 880 Thous. on scroll above eagle, TEN D. below, legend 264 grs. CALIFORNIA GOLD around. Strictly Very Fine. Minor planchet imperfection in field to the left of head, but does not mar the general appearance of this very scarce coin. Seldom offered for sale, in fact, this is one of three times that the coin has been offered in the last seven years. Conservatively estimated by us to realize \$750.00.

PIONEER AND TERRITORIAL GOLD COINS

Lot No. 2195

- 2195 \$20.00. 1852. **OVER '51.** Eagle with shield and ribbon on which is inscribed LIBERTY 884 THOUS on scroll above; around, UNITED STATES OF AMERICA TWENTY DOLS. Reverse, engine turned design, in the center of which is an oblong square on which is inscribed, in four lines, AUGUSTUS HUMBERT — UNITED STATES ASSAYER OF GOLD — CALIFORNIA — 1852. The date is recut 1852 over '51. Milled edge. Very Fine with traces of original mint lustre. At some point in its history, it has been retooled in the field on the obverse and reverse, to remove all unsightly nicks and scratches. Still choice and desirable. For the sake of accuracy we must mention two very minor edge dents that appear on the lower edge of the obverse. Should realize near \$2,000.00, when one considers the demand for rare Pioneer Gold coins in the current market.

Lot No. 2196

- 2196 \$10.00. 1852. **OVER '51.** Eagle with shield and ribbon, similar to the preceding. 884 THOUS on scroll above; around UNITED STATES OF AMERICA TEN DOLS. Reverse, engine turned with oblong tablet, inscribed in center, in four lines AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1852. This is the cracked die variety, with the die break on the reverse, running from the top to the bottom edges of the coin. Brilliant Uncirculated, with most original mint lustre. Very rare in any condition, especially rare in this choice condition. Lacking in a number of the outstanding collections that have been offered for sale in the last ten to fifteen years. Should command a premium bid close to \$1,000.00 especially in view of the condition of the coin.
- 2197 \$10.00. 1852. Perfect dies. Almost identical to the preceding lot, but without the recut date or overdate and without the diebreak. Extremely well preserved with much mint lustre and patina. Just About Uncirculated with barely visible cabinet friction. Upper corner at right of shield is weakly struck, as are all of this variety. Worth a bid in the vicinity of \$500.00.

UNITED STATES ASSAY OFFICE

The coinage bearing the legend of the United States Assay Office, San Francisco, was coined by the firm of Curtis, Perry and Ward, who were the United States Assay contractors, with Augustus Humbert as United States Assayer. This firm was organized in 1852 after the dissolution of Moffat & Co.

Lot No. 2198

- 2198 \$50.00. 1852. Octagonal. 887 Thous Eagle with shield and ribbon inscribed LIBERTY. 887 THOUS on scroll above, ends of scroll turned in; around UNITED STATES OF AMERICA FIFTY DOLS., all within a beaded circle, around which, in smaller letters UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA. Date at bottom. Reverse, engine-turned design with target in center. Milled edge. Very Fine, choice. Absolutely free of the usual dents and nicks that generally prevail on coins of this type. Far above average and worth a premium bid close to \$3,000.00.

Lot No. 2199

- 2199 \$50.00. 1852. Octagonal. Same general type as last but with 900 THOUS. on scroll, the ends of which are turned out. Reverse, engine-turned, but the size of the target has been slightly reduced. This variety is considerably rarer than the previous lot. Choice **Extremely Fine** with almost no signs of wear. Virtually free of minor nicks as is customary with these large and heavy gold pieces. An unusually strong impression, seldom equalled. We do not hesitate to place a value of \$3,250.00 on this coin.

PIONEER AND TERRITORIAL GOLD COINS

Lot No. 2200

- 2200 \$20.00. 1853. **884 THOUS.** Eagle with shield, ribbon in beak, 884 THOUS on scroll above, legend around, UNITED STATES OF AMERICA TWENTY D. Reverse, engine-turned design with oblong tablet in center, upon which is inscribed in four lines, UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA 1853. Brilliant About Uncirculated, with most original mint lustre. One minor edge dent on the obverse, another minor edge dent on the reverse. Neither of these impair the appearance or value of the coin. This coin is much rarer than generally recognized. We spent nearly ten years seeking out this coin for a customer, and finally located one last year. It is without a doubt, the rarest variety issued by the Assay Office. If we had this coin in our stock, the price tag would be \$2,500.00.
- 2201 \$20.00. 1853. **900 THOUS.** Similar in all respects to the preceding lot, with the one exception that the scroll above the eagle reads 900 THOUS. This is the commonest variety of all of the U. S. Assay Office coins, and is quite popular with collectors. This coin, Uncirculated, but not in full brilliance is worth \$500.00.
- 2202 \$20.00. 1853. **900 THOUS.** Duplicate of the preceding lot in all respects. Not as choice as the preceding, as it is only Extremely Fine. Worth \$450.00 as such.
- 2203 \$10.00. 1852. **884 THOUS.** Eagle with U. S. Shield; ribbon in beak, 884 THOUS on scroll above, TEN DOLS. below; UNITED STATES OF AMERICA. Reverse, oblong tablet within engine-turned design; inscription in four lines, UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO, CALIFORNIA 1852. A trace of cabinet friction on the obverse takes this coin out of the Uncirculated class. Most original mint lustre is still visible. A choice and very scarce specimen. Will probably sell near \$800.00.

Lot No. 2204

- 2204 \$10.00. 1853. **884 THOUS.** The same type of design as the preceding, but **the very rare variety** with **884 THOUS** dated 1853. The reverse design legend within the tablet is **changed to five lines**. This coin is very rare, and is missing in a number of collections. Most of the outstanding collections offered for sale in the last twenty years lacked this coin. For some unexplained reason, the publishers of reference books fail to reflect the true value of this coin in their listings. Mr. Walton was very fortunate to have two specimens in his collection. The duplicate sold in the June sale in only Very Fine condition for \$1,025.00. This coin, in just about the same condition, strictly Very Fine is certainly worth the same. It is difficult to state or project when the next specimen will be offered.

Lot No. 2205

- 2205 \$10.00. 1853. **900 THOUS.** The same type of design as the preceding, but the **extremely rare variety** with **900 THOUS** dated 1853. The reverse design legend within the tablet is also changed to a **Five Line inscription**. This coin is extremely rare, in fact a good deal rarer than the lot just offered, and is also lacking in a number of collections. We have checked auction catalogues of prominent sales conducted in the last twenty years, and cannot find a single record of this coin. We had the coin on a "want-list" for a customer for nearly ten years, and located one, quite by accident at an obscure convention two years ago. This is another coin which for some unexplainable reason, does not reflect its true value in the reference books. The coin offered here is Extremely Fine. It has six minor edge nicks on the reverse edge at left side. We do not hesitate to estimate the value at \$2,500.00. The rarity and value of this coin cannot be over-estimated.

MINERS' BANK

The Miners' Bank was conducted by Wright & Co. According to Adams book, their bank was housed in a little wooden cottage at the corner of Washington and Kearney Streets. The \$10.00 gold coin was the only denomination issued and circulated by this firm. The company was dissolved sometime during January, 1850

Lot No. 2206

- 2206 \$10.00. n. d. (Not dated but coined in 1849). This firm only minted the Ten Dollar denomination. Eagle with shield, olive branch in right talon, three arrows in left talon. CALIFORNIA above, thirteen stars in semi-circle below. Reverse, TEN D. in center, star at each side, MINERS BANK above, SAN FRANCISCO, below. Brilliant About Uncirculated, with a faint evidence of having been polished to remove nicks from the reverse field. It has been many years since a choice specimen such as this is, has come upon the market. For some reason or other, this coin is one of the really rare coins in the series, but, has not been fully appreciated by comparison with some of the values quoted for more common varieties of Pioneer Gold. This coin should sell at \$3,000.00. Of course, with the strong demand for Pioneer Gold coins today, this estimate could be conservative.

BALDWIN & COMPANY

Baldwin & Co. whose coinage is considered among the rarest of the Pioneer series, coined according to all available reports, a huge quantity of gold coins. It is quite apparent that their intrinsic value was so high that they soon found their way into the melting pot, hence the rarity of all coins bearing the name of this firm.

Baldwin & Co. was composed of George C. Baldwin and George S. Holman. They operated only in 1850 and 1851. Their most famous or best known coin is the "Horseman" or "Cowboy" Ten Dollar gold coin.

Lot No. 2207

- 2207 \$10.00. 1850. **The famous HORSEMAN or COWBOY type.** Large eagle with shield on breast, olive branch in right talon and three arrows in left talon. BALDWIN & CO. above, SAN FRANCISCO below, five stars below each wing of the eagle. Rev. Vaquero (cowboy) on horseback, throwing lariat, 1850 below, around CALIFORNIA GOLD TEN DOLLARS. The **S** in dollars is considerably smaller than the other letters in the legend. This coin is **STRICTLY BRILLIANT UNCIRCULATED**, with all original mint lustre. Without a doubt, the most interesting and popular design of the entire Pioneer Gold coinage. We tried to purchase a similar coin for a customer at an auction earlier this year, and stopped bidding at \$7,000.00. The coin was almost as nice as this one, therefore, we do not hesitate to value this coin at \$8,500.00.

Lot No. 2208

- 2208 \$10.00. 1851. **Liberty head** facing left, BALDWIN & CO. in diadem, date below, thirteen stars. Reverse, eagle with adopted design, branch and arrows as on the regular coinage of the United States. Around, S. M. V. CALIFORNIA GOLD TEN D. Milled edge. Unusual die break at fourth star opposite the nose of Liberty. Sharp Very Fine, in fact, could be classed as Extremely Fine. Some time ago, this coin had some cleaning or polishing which removed nicks from the field. Still very choice and desirable. Certainly one of the great rarities in the entire series. We doubt if more than six specimens exist today. This is one of the very few times we have ever handled this coin. The condition of this coin is far superior to the Ten Eyck (1922) or Slack (1925) specimens. Certainly rarer than the preceding type with Horseman, but not as popular, therefore, our conservative estimate of \$6,000.00.

Lot No. 2209

- 2209 \$5.00. 1850. Liberty head facing left, BALDWIN & CO. on diadem, date below, thirteen stars. Reverse, eagle as on adopted design of regular gold coinage. Legend, S. M. V. CALIFORNIA GOLD FIVE DOL. The last A in the word California has been re-engraved, as it was originally cut in an inverted position and corrected. This coin shows evidence of brushing to remove scratches in the field, and some minor scratches still show. The coin is Very Fine and the high points do not show the usual heavy wear. The brushing just described, does not detract from the value of this rare coin. Similar coins sell near \$750.00 for the condition, this should sell closer to \$500.00 because of the impairment described.

SCHULTZ & COMPANY

Schultz & Co. was formed by Judge G. W. Schultz and W. T. Garratt. Their principal business was operating a brass foundry, located in the rear of the Baldwin & Co. premises. According to all available records, they made all of the dies for the coinage of the various San Francisco firms in late 1850 and continuing through that hectic period that followed. Kuer prepared most of the dies they made. As was the case with the Baldwin issues, Schultz coins were of such high intrinsic value they quickly found their way back into the melting pot. Hence, possibly four specimens exist today.

Lot No. 2210

- 2210 \$5.00. 1851. Liberty head facing left, SHULTS & CO. on diadem. (Note incorrect spelling by Kuer who engraved the dies) Date below, thirteen stars around. Reverse is very similar to adopted design of United States Gold coins. PURE CALIFORNIA GOLD FIVE D. around. Milled edge. Exceedingly rare, considered to be one of the rarest of all Pioneer Gold coins. Until about 1930 it was presumed that only two specimens were known. To the best of our knowledge, there are now four specimens known, which includes the specimen offered here. It has been nearly 20 years since a specimen has been offered at auction. Even when Pioneer issues were more or less plentiful, this coin was not available. These particular coins were rapidly melted, due to their high intrinsic value at the time of issue. As the other known specimens are considered "out of the market" the opportunity for securing this rarity is almost as rare as the coin itself. This coin is bound to set a new high record, and probably very close to \$5,000.00.

DUNBAR & COMPANY

Edward E. Dunbar, founded Dunbar & Co. as successors to Baldwin & Co. in the latter part of 1851. Ultimately, they were responsible for the redemption and remelting of Baldwin & Co. coins. They only struck the Five Dollar denomination, and in very limited amounts. From a standpoint of rarity, based upon the number of specimens known, this coin is as rare as any coin in pioneer history, and probably the highlight of the California section of the Pioneer Gold coin collection.

Lot No. 2211

- 2211 \$5.00. 1851. Liberty head as on the regular U. S. gold coinage of this period. DUNBAR & CO. on diadem, thirteen stars around, date below. Reverse, usual eagle with shield on breast, olive branch in right talon, three arrows in left talon; FIVE D. below. Legend, S. M. V. (Standard Mint Value) CALIFORNIA GOLD. Milled edge. Extremely Fine, struck in bright yellow gold. Excessively rare, in fact, one of the rarest of all of the Pioneer Gold coinages. The specimen offered here, to the best of our knowledge is the finest known of the three specimens in existence. This coin has a very interesting pedigree. It was owned by the late J. F. Bell for many years as part of his outstanding collection. We sold the Bell collection in 1944. This coin was Lot No. 1050. It was purchased by Mr. Alfred Walters, who in turn, sold it at auction in 1951 through the late B. Max Mehl of Fort Worth, Texas in his 114th sale, where it was purchased by Mr. Walton as Lot No. 2148. It is with a great deal of pride that we are again able to offer this great rarity. While it is very difficult to estimate the value of this great rarity, with no current record to quote, we do believe that the coin should sell in the vicinity of \$7,500.00.

WASS, MOLITOR & COMPANY

Wass, Molitor & Co. was formed by S. C. Wass and A. P. Molitor, and commenced minting operations in 1852. They only struck a \$5.00 and \$10.00 denomination in their first year. Prior to discontinuing the practice of striking coins in 1855, they did make \$10.00, \$20.00 and \$50.00 denominations. The \$20.00 pieces are quite rare, the others very scarce. It is interesting to note that the \$5.00 coin had a gold bullion value (intrinsic value) of \$5.04.

Lot No. 2212

- 2212 \$50.00. 1855. **ROUND.** Small Liberty head facing left, date in small figures, below; thirteen large six-pointed stars. Reverse, 50 DOLLARS in wreath, small scroll above with 900 THOUS, around, SAN FRANCISCO CALIFORNIA. WASS MOLITOR & CO. Round. Milled edge. Very Fine and very choice. Above average, with some faint usual light hairlines and nicks in the field. The word DOLLARS, which, is usually weakly struck, is well struck on this specimen. It is far above the average which makes it rare and desirable. In this condition, we do not hesitate to place a value of \$3,750.00 on this coin. It is the only type of **round** Fifty Dollar gold coin that is generally available to collectors.
- 2213 \$50.00. 1855. **ROUND.** Duplicate of the preceding lot. The coin is in a Fine to Very Fine condition, but the entire field of the coin has been retooled or brushed to smooth out a number of nicks, dents and hairlines. Still has a pleasant and attractive appearance. Will probably realize in the vicinity of \$2,500 00. and in time should prove to be a bargain at that price.

Lot No. 2214

- 2214 \$20.00. 1855. **SMALL HEAD** variety. Small head of Liberty facing left, W. M. & CO. on diadem, date below, thirteen stars around. Reverse, small eagle with shield on breast, olive branch in right talon, three arrows in left talon. 900 THOUS on scroll, above; around SAN FRANCISCO CALIFORNIA TWENTY DOL. Milled edge with slightly raised borders. Very Fine, choice, in fact a borderline Extremely Fine with very little evidence of wear on the high points. The field has apparently been brushed to remove any noticeable hairlines or scratches, but this does not impair the value. Extremely rare and valuable, and considerably harder to locate than the Fifty Dollar coin. Of course, it is not as rare as the variety with Large Head, which is not in this collection. Should realize in the vicinity of \$3,000.00.

Lot No. 2215

- 2215 \$10.00. 1852. **LARGE HEAD** variety. Large Liberty head left, W. M. & CO. on diadem, date unevenly spaced below, thirteen large stars, minute die break that joins all stars. Reverse with eagle of generally adopted design in center, S. M. V. (Standard Mint Value) CALIFORNIA GOLD TEN D., around. An unusual condition coin - the obverse is sharp Extremely Fine, showing almost no wear, the reverse is Very Fine (apparently weakly struck or from a worn die). The reverse has been brushed to remove nicks from the field. The obverse shows much original mint lustre. A very attractive example of a rare coin seldom offered for sale. This coin should realize over \$750.00.

Lot No. 2216

- 2216 \$10.00. 1852. **SMALL HEAD** variety. Smaller, but still ordinary size head for the coin, left. The quickest way to determine whether this coin is the large or small head is to examine the bustline of Liberty. On the large head, the bustline curves up over the 1 in the date. On the small head, the bustline curves down and points to the 1 in the date. In all other respects the description of this coin is identical to the preceding. This coin is only Very Fine, with the usual weak reverse, which is a characteristic of this variety. Very rare, and just about the equal of the Twenty Dollar of this variety. In view of the condition, the coin should sell near \$2,500.00.
- 2217 \$10.00. 1855. Type similar to the Large Head variety of 1852. Obviously a new die had been cut for this issue, as the stars are smaller and sharper, and the die work is in much better detail. Very Fine, choice. This coin has been polished to remove all objectionable nicks in the field, and its general appearance is that of a slightly mishandled proof. The coin is still quite desirable and very much in demand. Worth upwards of \$500.00.
- 2218 \$5.00. 1852. Large head of Liberty. W. M. & CO. on diadem, date below; thirteen stars around. Reverse, eagle as on adopted designs of the regular issues; legend, FIVE DOLLARS IN CALIFORNIA GOLD. Milled edge. Very Fine, which is a quite unusual and rare state of preservation for the coin. Nearly every specimen ever offered is in Good to Fine or low grade. This very desirable coin should be worth about \$500.00.

KELLOGG & COMPANY

Kellogg & Co. is reported to have been one of the most important Private Assayers in California. The firm was organized in 1853 by John G. Kellogg, an employee of Moffatt & Co. together with George F. Richter of the Federal Assay office. Their first coins were dated 1854. They issued \$20.00 pieces in 1854 and 1855, as well as round \$50.00 pieces in 1855. These \$50.00 pieces are extremely rare. Despite the fact that the San Francisco mint was then producing coins, Kellogg issued a large quantity of gold coin in 1855.

Lot No. 2219

- 2219 \$20.00. 1854. Liberty head facing left, date below, KELLOGG & CO. on diadem; thirteen six pointed stars. Reverse, eagle as on adopted designs of the regular issues of this denomination, legend, SAN FRANCISCO CALIFORNIA TWENTY D. About Uncirculated, showing almost no evidence of wear. The coin does have a dull appearance, probably due to the fact it was brushed many years ago to remove nicks and hairlines from the field. A very desirable specimen that will probably realize near \$500.00.
- 2220 \$20.00. 1854. Duplicate of the preceding lot. Extremely Fine, choice. Most original mint lustre still visible. Faint evidence of mishandling due to nicks on the cheek, but still choice and acceptable. Certainly worth about as much as the preceding lot.
- 2221 \$20.00. 1855. This coin from all appearances is identical to the preceding lot, the only obvious difference is the date. This coin is very similar to the first 1854 offered in that it is About Uncirculated, showing almost no evidence of wear, with a similar dull appearance due to the fact it was brushed to remove nicks and hairlines, especially from the field. This variety is slightly rarer than the coin dated 1854 and should sell in the vicinity of \$600.00.

OREGON EXCHANGE COMPANY

Oregon Territory, as the other portion of the "Pioneer Country", promptly felt the need of coins or some medium of exchange to replace the inconvenient gold dust prevalent at that time as practically the only medium of exchange. The Oregon Exchange Company composed of Messrs. Kilburne, Magruder, Taylor, Abernathy, Wilson, Rector, Campbell and Smith established a mint at Oregon City, and a blacksmith, Thomas Powell created the mint machinery necessary to manufacture coins. The first coins issued were the \$5.00 pieces and then followed by the valuable and sought after \$10.00 pieces. Both of these coins are very rare, the Ten Dollar being much more desirable, and one of the great rarities in this collection.

Lot No. 2222

- 2222 \$10.00. 1849. A beaver on a log to right, O. T. (Oregon Territory) below; 1849 below O. T. with a branch on either side. Seven six-pointed stars in a semi-circle over beaver, above K. M. T. R. C. S. These initials are the members of the firm composing the Oregon Exchange Company. Reverse, in center, in four lines 10. D. 20. G - NATIVE - GOLD - TEN D. Around, OREGON EXCHANGE CO. Beaded and raised borders. Milled edge. The few known specimens of this great rarity were all poorly struck, but this specimen is unusually well struck. Very Fine, choice, could be classed as Extremely Fine for the coin. According to records available to us, this is the third time in approximately 55 years that the coin has been offered at auction. Zabriskie in 1909 had a poor and holed specimen; Judge Slack in 1925 had a weakly struck Very Fine coin. This coin, because of its quality, was selected to be photographed and illustrated in the Guidebook. None of the great collections, such as Ten Eyck, Earle, Nygren, Bell, Hall, Wharton etc. had a specimen of this great rarity. Stories have appeared from time to time, and rumors circulated that newly discovered specimens of this coin have come to light. We have yet to be able to prove out any of these stories, and have spent considerable time and research in trying to do so. It is without a doubt, a rarity in a class by itself, and will no doubt remain that way for all time. One of the most sought-after coins in the entire Pioneer Gold series. In our many, many years of selling coins at auction, this is the first time we have had the pleasure and good fortune of being able to offer this outstanding rarity, to the highest bidder. We know the bidding will be spirited, and suspect that it will be high, probably very close to \$9,000.00.

Lot No. 2223

- 2223 \$5.00. 1849. Obverse similar to the Ten Dollar, with minor exceptions. The legend above the beaver K M T A W R G S. Note the initial G instead of a C, which was an engraving error. Also, the initials below the beaver read T. O. instead of O. T. which should have been incorporated within the die. (Two noticeable errors). The reverse reads 130 G. NATIVE GOLD 5 D., OREGON EXCHANGE COMPANY around. A sharp Very Fine coin, with two barely discernable edge dents, which are mentioned for the sake of accuracy. This coin was apparently brushed at one time to remove only unsightly nicks or bruises, which does not actually impair the value or desirability. While this coin is not as rare as the Ten Dollar just offered, it still rates much attention. This coin is also sought after by collectors of Territorial Gold and should command a bid very close to \$3,000.00.

GOLD COINS OF THE MORMONS

Salt Lake City, Utah

The Mormons felt the same need for a convenient money or coin as did the other Pioneers. Therefore, in 1849, the Mormons established their own mint, and struck coins from gold obtained in California. The first Director of the mint was Thomas Bullock, and the coiner was John Kay. The dies were engraved by a local dentist, James M. Bartow. The Mormons coined gold coins of all denominations, between 1849 and 1860, from the \$2.50 to the \$20.00, including three varieties of the \$5.00. While all Mormon coins are quite rare, the rarest are the \$10.00 and \$20.00 coins. This is the first time we have ever been able to offer a complete set at auction.

Lot No. 2224

- 2224 \$20.00. 1849. Bishops mitre or hat above all-seeing Eye, around HOLINESS TO THE LORD. Reverse, two clasped hands with date below. Above, G. S. L. C. P. G. (Great Salt Lake City Pure Gold). In semi-circle below TWENTY DOLLARS. Struck on a thick planchet in light yellow gold. The first \$20.00 gold coin minted for general circulation in the United States, and the only Double Eagle of this date available to collectors. Plain edge. Broad raised borders. Strictly Very Fine, in fact it borders Extremely Fine, showing only the slightest wear overall. Most of the letters in the legend have been re-engraved, which apparently was done during the preparation of the dies. A rarity which is seldom offered for sale, and each time offered establishes a new high record price. The current market value for this coin, in this condition, is presently \$4,000.00.

PIONEER AND TERRITORIAL GOLD COINS

Lot No. 2225

- 2225 \$10.00. 1849. Bishops mitre or hat above all-seeing Eye, around HOLINESS TO THE LORD. Reverse, two clasped hands with date below. Around, TEN. DOLLARS. PURE. GOLD. (The only Mormon Gold coin with this wording). Raised borders, plain edge. A planchet defect making it appear as a dent below and to the left of the Eye and a smaller defect at the E in PURE. Considering the manner in which these coins were struck, this specimen can be classed as strictly Fine. Pleasant even wear, all details are clear and readily discernable. This coin is an outstanding rarity, of which possibly four or five specimens are known to exist. Probably on every current "want list" of those collecting Pioneer Gold coins and without a shadow of a doubt the most sought after coin in the series. This coin has a very mysterious pedigree. It was sold by the late eminent numismatist B. Max Mehl as lot number 305 in his sale of the F. H. Knoop collection, December 1931. We do not know who bought the coin at that time, but after an absence of thirty two years it has again come to light. It is fascinating to observe in connection with this origin of pedigree, that in June 1945 at the offering of the Waltman collection of Pioneer Gold coins, at auction, by the same B. Max Mehl, he states "according to the best of my knowledge, no other specimen of this great rarity appeared at auction in the past sixty years other than the one in the Zabriskie Sale and the one offered here (Waltman, June 1945)". Why he did not make mention of the coin he offered for sale in 1931 is a mystery. Be that as it may, the coin has returned to the collecting fraternity, and it is with warranted pride that we are able to offer this great rarity, which is just about as rare as any coin in the Pioneer series. When one considers the fact that a Kellogg & Co. Fifty Dollar gold coin, of which perhaps twelve specimens are known, sells at \$15,000.00 today, this coin should command a bid in the vicinity of \$10,000.00.
- 2226 \$5.00. 1849. Obverse, Bishops mitre above all-seeing Eye; legend HOLINESS TO THE LORD. Reverse, date 1849, clasped hands above. Value in semi-circle, FIVE DOLLARS. Above, G. S. L. C. P. G. (Great Salt Lake City Pure Gold). Sharp Very Fine and choice. Two planchet imperfections or dents on the Eye on the obverse. Rare and in demand. Still worth \$750.00.

PIONEER AND TERRITORIAL GOLD COINS

- 2227 \$2 50. 1849. Obverse and reverse designs are identical to the preceding lot. The only obvious change being the denomination spelled out TWO. AND. HALF. DO. Plain edge. Very Fine, sharp and choice. Unusually well struck with full borders. Considerably rarer than the Five Dollar just offered, and almost on par with the Twenty Dollar coin from a standpoint of rarity. We estimate the value of this coin in excess of \$1,000.00.
- 2228 \$5.00. 1850. Clasped hands with date below, otherwise the same basic design as on the previous coin. Reverse design is also very similar, but within a circle of nine stars. Plain edge. Extremely Fine, nearly Uncirculated with some original mint lustre. A much sharper and bolder impression and of finer workmanship than the coins dated 1849. Very rare and desirable. Will probably sell in the vicinity of \$750.00.
- 2229 \$5.00. 1850. Duplicate of the preceding lot. Nice Very Fine, with uniform wear over the entire surface. Still popular and desirable, and should sell near \$600.00.

Lot No. 2230

- 2230 \$5.00. 1860. The rare and interesting type with the lion reclining to the left, date below. HOLINESS TO THE LORD in Mormon characters. Reverse, eagle behind beehive, 5. D. below; around DESERET ASSAY OFFICE, PURE GOLD. Milled edge. Brilliant About Uncirculated, with much original mint lustre still visible. Dent at lower left edge of reverse. Very rare and in great demand. Worth in the vicinity of \$1,250.00, although we recently noticed a similar specimen advertised for sale at \$1,750.00 in a like condition.

PIONEER AND TERRITORIAL GOLD COINS

GOLD COINS OF COLORADO

CLARK, GRUBER & CO.

The so-called "Pikes Peak" gold coins were issued during the Pikes Peak gold excitement, in 1860 and 1861. The two Clark brothers, together with E. H. Gruber organized the first firm to issue gold coins from gold dust recovered from the Colorado gold mines. The bank and mint was opened in 1860 to make it more convenient for the purchase of gold dust from the miners. The \$20.00 pieces of this firm, the rarest of their issue, are of a higher standard and/or weight than similar denominations of the regular United States coinage.

Lot No. 2231

- 2231 \$20.00. 1860. Obverse design with **view of Pikes Peak**. Legend; PIKES PEAK GOLD TWENTY D.; DENVER below the Peak. Reverse, eagle with shield, large date below. Legend; CLARK GRUBER & CO. around. Brilliant About Uncirculated, showing only the faintest signs of wear on the high points. This coin has been brushed in the field to remove any nicks or scratches, and gives the appearance of having a proof-like surface, which is, of course, artificial. One of the most beautiful and attractive, as well as one of the rarest and most sought after of all Pioneer Gold coins. Listed in the current edition of the Guidebook at \$4,250.00 in Uncirculated condition, this coin is certainly worth that.

Lot No. 2232

- 2232 \$10.00. 1860. Obverse design with **view of Pikes Peak**. Same design as the Double Eagle of this series, dated 1860. Extremely Fine and very choice, showing almost no signs of wear. A few barely discernable scratches on the obverse in the field. Almost as rare as the Double Eagle, and certainly as much in demand. In this condition, the coin will probably realize close to \$1,500.00.

PIONEER AND TERRITORIAL GOLD COINS

- 2233 \$5.00. 1860. Liberty head, inscribed on diadem CLARK & CO., date below, thirteen stars around. Reverse, eagle as on the regular issues of United States Gold coins. Legend, PIKES PEAK GOLD DENVER FIVE D. around. Brilliant Uncirculated, with a faint trace of cabinet friction on the hair on the obverse. It is possible that this was struck from a worn die, although the coin is sharp in all other respects. In our opinion this coin should sell in the vicinity of \$500.00.
- 2234 \$2.50. 1860. Liberty head, inscribed on diadem CLARK & CO., date below, thirteen stars around. Reverse, eagle as on the regular issues of U. S. Gold coins. Legend, PIKES PEAK GOLD DENVER 2½ D. around. Uncirculated. The center of the coin was weakly struck, probably from worn dies. The hair on the obverse is flat, as is part of the shield on the eagle on reverse in same position. Free of usual nicks. Choice and desirable. Very much in demand. A similar coin, graded about uncirculated, sold earlier this year at auction for \$475.00.

Lot No. 2235

- 2235 \$20.00. 1861. Liberty head facing left, PIKES PEAK on diadem, date below head. Thirteen six pointed stars. Reverse, eagle as on the regular issues of the United States Double Eagles. Legend; CLARK GRUBER & CO. DENVER TWENTY D. around. Milled edge. Very Fine, choice, could almost be graded as Extremely Fine. Free of the usual nicks in the field. Planchet defect on the cheek of Liberty, which does not actually impair the value of this rare coin. Very much in demand. We noted a similar coin offered last summer for \$3,500.00 but do not feel that this coin is worth that much. \$3,000.00 is a true picture of value.
- 2236 \$10.00. 1861. Head of Liberty with PIKES PEAK on diadem. Reverse, same type as the \$20.00 of this series, eagle with shield on breast, TEN D. below. Legend, CLARK, GRUBER & CO. Just about Extremely Fine, showing only slight wear on the obverse and reverse. Choice, above average, and difficult to locate this nice. Very much in demand, as are all coins of Colorado. Valued by us at \$500.00.
- 2237 \$5.00. 1861. Type and design as on the preceding lot. PIKES PEAK on diadem. Extremely Fine, choice and desirable. The top of the obverse, and the corresponding position on the reverse at the lower section of the eagle are softly struck. Will probably sell close to \$400.00.
- 2238 \$2.50. 1861. Type and design as on the preceding lot. PIKES PEAK on diadem. Extremely Fine, choice. The center of the coin, on both obverse and reverse, i. e. the hair on the obverse, the shield on the eagle on reverse, are weakly struck, apparantly from worn dies. This very desirable coin is worth \$400.00.

THE BECHTLER FAMILY

These tintypes are the only known pictures of the famous Bechtler Family. They were obtained by us from descendants some years ago. We had hoped that some day we would be able to publish them in conjunction with a fine group of Bechtler gold coins. Little did we realize then that we would eventually be able to offer the largest and most complete collection ever assembled. These original tintypes will be presented by Stack's to the Smithsonian Institution for all to see.

Christopher Bechtler, Sr.

Frederick Bechtler

Augustus Bechtler

Louise Bechtler

Anne Bechtler Kee

Sophia Fleck Bechtler

Christopher Bechtler, Sr. Born 1782 in Baden, Germany. Received naturalization papers in 1829. Senior member of the firm bearing his name from 1831 to his death in 1842. Children: Augustus, Charles, Anne, Louise.

Frederick Bechtler. Son of Christopher Bechtler, Jr. **Nephew** of Christopher Bechtler, Sr.

Augustus Bechtler. Born 1810 - died about 1846. Son of Christopher Bechtler, Sr. Naturalized the same day and year as his father at the age of 19.

Louise Bechtler. Eldest daughter of Christopher Bechtler, Sr.

Anne Bechtler Kee. Youngest daughter of Christopher Bechtler, Sr. (enjoys prominence in the fact that she sewed the first Confederate flag for Jefferson Davis).

Sophia Fleck Bechtler. Wife of Christopher Bechtler, Jr. (Christopher Bechtler, Jr. was christened Carl Christ Bechtler but when he came to the U. S. with his uncle, he dropped "Carl" and took his uncle's full name).

THE HISTORY OF BECHTLER COINAGE

Many millions of dollars in gold have been mined in the foot-hills of the North Carolina mountains since the first nugget was found on a farm in Cabarrus County in 1799. Rutherford County and Rutherfordton have the distinction of having the only private mint ever to strike substantial amounts of coin in the south-eastern United States outside of the U. S. Mints.

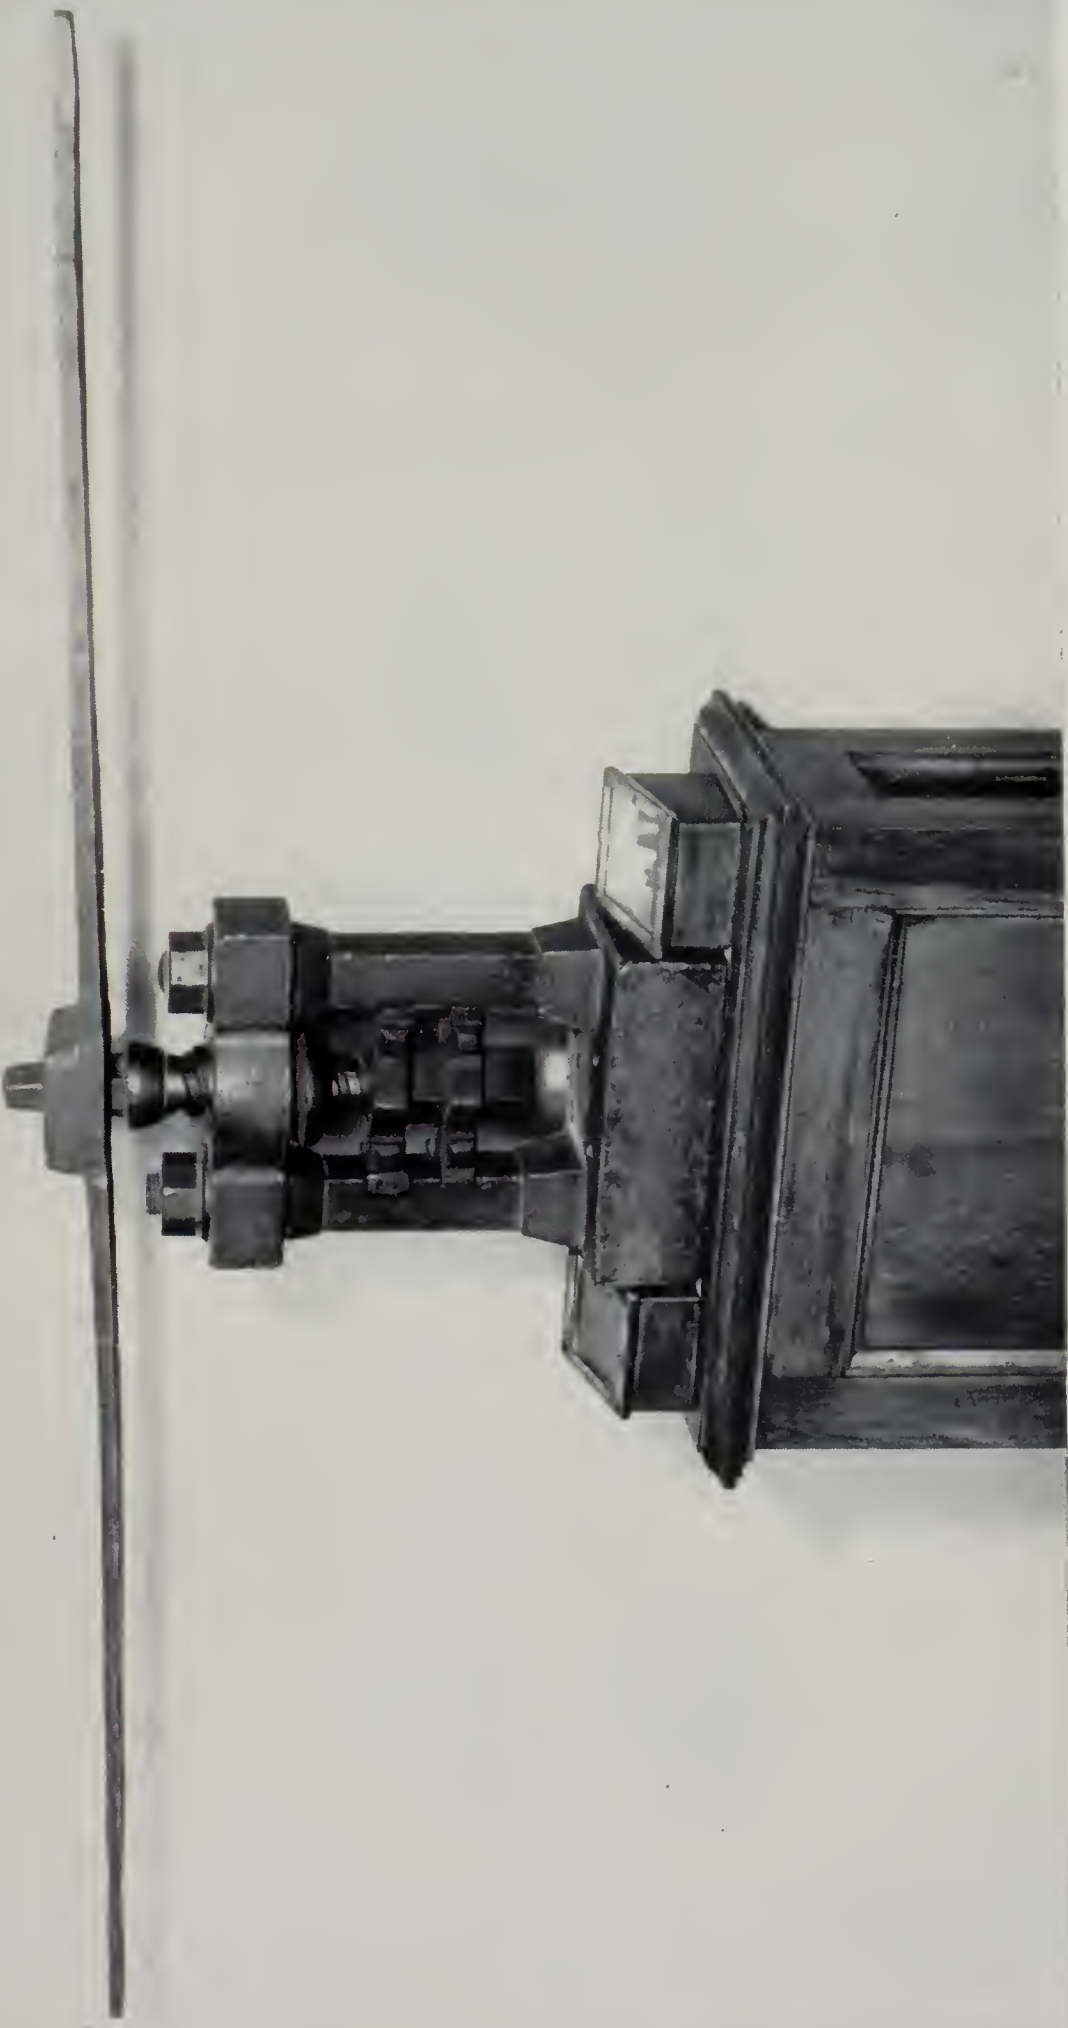

Christopher Bechtler, Sr. his sons Augustus and Charles, and his nephew Christopher Bechtler, Jr. came to Rutherford County in 1830 after emigrating from Germany. Christopher, Sr. and Augustus were skilled artisans in all types of metal, and immediately opened a jewelry shop in Rutherfordton. They also carried on operations as gunsmiths, miners, and refiners. (All of the guns and jewelry they created command premium prices today.)

Gold in dust and nugget form was used as a medium of exchange, as state notes and other unstable monies were rapidly shrinking in value. At this point Christopher Bechtler, Sr. recognized the need for a "Hard" circulating medium and decided to establish a refining and coining office. Preparations were made for coining gold and on July 2, 1831 he advertised that he would be available, to put into coin form, gold dust from the local mines. Christopher Bechtler, Sr. opened the assay office and coining shop and began operations; he was assisted by his capable son Augustus throughout the entire coining period. All of the dies as well as the machinery for striking the coins were made by them. They struck coins continually from 1831 to 1842 when Christopher, Sr. died. From available records the coinage totalled \$2,241,850.50.

Augustus Bechtler moved the coining shop from its original location and continued minting operations after his father's death for about one year. Very little coining was done by Augustus Bechtler as the commission for assaying and striking was only 2½%. We presume he found the jewelry profession much more lucrative and devoted more time to it.

Christopher Bechtler, Jr. went into business with Augustus and probably did most of the coining because he did not have his uncle's or cousin's knowledge of metal working. He did not command the respect which his uncle enjoyed and on one occasion a report from the Director of the U. S. Mint indicated that his coins assayed lower than the nominal value marked on them. Yet they still circulated freely!

An interesting sidelight to the Bechtler series is that many Confederate contracts and money agreements of the 1860's specified Bechtler gold coins as the consideration rather than Confederate States of America currency or federal specie.

THE BECHTLER GOLD COINAGE

SPECIAL NOTE: Never before in numismatic history has such a complete collection of Bechtler Gold coins been offered for sale. In order to facilitate the collecting of this fascinating series, we have carefully described and illustrated each variety. We have also taken the liberty of assigning an identification number to each variety. They are noted in parentheses as (S —). We hope that this numbering system will be of value in the collecting of this series.

Unlisted Variety of Bechtler \$2.50 Gold

Lot No. 2249

- 2249 \$2.50 **NORTH CAROLINA (S-11). 20 C without 75 G.** Obverse: RUTHERFORD, C. BECHTLER, ASSAYER in concentric circles. Reverse: 2 50., 20 C in field, NORTH CAROLINA GOLD, around. However, lettering arrangement completely different than others previously described. **CAROLINA appears above 2 50** not GOLD as on preceding coins (S-9 and S-10). This coin has a large die crack extending from "O" of NORTH to the "O" of the denomination. Fine beaded border. Very fine reeded edge. The "O" of the denomination is almost as large as the other numerals. The reverse die is entirely new to us and we cannot find a single record of the coin ever having been offered or sold. It is our opinion that the die cracked early in use and was discarded. We feel that this Extremely Fine coin is **UNIQUE** and worthy of a bid in the \$3,500.00 area.

Lot No. 2250

- 2250 \$2.50 **NORTH CAROLINA (S-12). 20 C with 75 G on obverse.** Obverse: Star and 75 G in field, C. BECHTLER ASSAYER around. Reverse 2 50, 20 C in field, NORTH CAROLINA GOLD around. It is our opinion that the denomination which appears on the coin is the reverse design, as on all other United States coins. This would, therefore, account for the difference in the above description as compared with the Guidebook. The "O" in the denomination is smaller than the other numerals. Wide reeding on edge. Extremely Fine. An exceptional specimen and one of the finest known.

C. Bechtler \$5.00 Gold

Lot No. 2251

- 2251 \$5.00 **CAROLINA (S-13). RUTHERFORD, 140 G, 20 C.** Obverse: 140. G. 20 in field. CARATS below, CAROLINA GOLD, AUGUST 1, 1834 in concentric circles. 20 is close to Carats. Reverse: 5 DOLLARS in field, C. BECHTLER AT RUTHERFORD, around. **Reeded edge**, hence a rare variety. About Uncirculated.
- 2252 \$5.00 **CAROLINA (S-14). RUTHERFORD, 140 G, 20 C.** Obverse and reverse designs same as the preceding, but this coin has a **Plain Edge**. The commoner of the two varieties. Uncirculated.

Lot No. 2253

- 2253 \$5.00 **CAROLINA (S-15). RUTHERF., 140 G, 20 C.** Obverse: 140. G. 20 in field, CARATS below, CAROLINA GOLD, AUGUST 1, 1834 in $\frac{3}{4}$ concentric circles. In this variety obverse lettering position is different and **20 is high above CARATS**. Reverse: Similar to above type but with Rutherford abbreviated to RUTHERF. Plain edge. Extremely Fine.

Unlisted Variety of Bechtler \$5.00 Gold

Absolutely new variety or muling, unpublished and unlisted. Plain edge. About Uncirculated. Very rare, but since there are two specimens contained in this collection (and sale) this variety can now be considered collectible.

RARE UNPUBLISHED BECHTLER COUNTERSTAMP

on U. S. Half Eagle of 1834

Lot No. 2265

- 2265 **United States Half Eagle (\$5.00 Gold), 1834, the Plain 4 variety, with C. Bechtler counterstamp.** A regular issue United States gold coin of 1834 with counterstamp **C. BECHTLER, N. C.** behind head of Liberty and **22** (probably 22 carats) on neck. The following story was inscribed on the plastic holder that housed this unusual coin: "One of Mr. Bechtlers clients bought a horse in 1838. He had all Bechtler \$5.00 Gold pieces to pay for the horse. He had a U. S. \$5.00 Gold piece to pay for the saddle but the man selling the horse and saddle would not accept the \$5.00 U. S. Gold unless it was OKed by Mr. Bechtler. So Mr. Bechtler stamped it with his gold bar stamper. Only two known. Very Rare". In the absence of any document or written paper to verify the information conveyed, we do not make any warranty or guarantee that this story is factual. The coin is being offered "as is". The item is in Very Fine condition, and is sold together with the plastic holder that housed same.

BECHTLER \$5.00 GOLD AS "TRADE BOOSTER"

Lot No. 2266

- 2266 C. Bechtler. \$5.00. 134 G. 21 C. This coin has a large punch mark in the center which is explained as follows: In the large plastic holder that housed the Walton Collection of Bechtler Gold Coins, the following story was inscribed under the coin that is offered here; "Bechtler \$5.00 gold piece used as a trade booster by sinking a lump of gold worth about \$2.00 or \$3.00 in the face of the coin. When given in change to the purchaser and returned to the store he would receive \$10 00 in trade." The coin is without a doubt, genuine. Since this information has never been published and in the absence of any document or statement to verify the information conveyed, we, as cataloguers, do not make any warranty or guarantee that the story is factual. The coin is being offered and sold "as is". The item is in a choice Very Fine condition, and is sold together with the plastic holder that housed same.
